

I am a United Airlines Flight Attendant. Please DO NOT allow inflight cell phone use. There is no hard evidence that cell phone use doesn't interfere with navigational instruments. Cell phone use would enable terrorists to coordinate a plan of action more effectively. Our cabins are already packed to capacity. Letting people yap on their cell phones 8 inches away from one another is a recipe for disaster that we, as flight attendants, have no authority to police!!!!!!
PLEASE DO NOT ALLOW INFLIGHT CELL PHONE USE!!!!
